

OPTION H: EXTENDED PSYCHIATRIC ASSESMENT

- This option covers costs for the initial examination and diagnosis of ADHD/ADD and/or autism spectrum disorders.
- Coverage is conditional upon our Health Team assessing that there is a medically and clinically justified need for assessment and diagnostic evaluation, in accordance with National Clinical Guidelines.
- We may require that a referral from a physician be submitted.
- Expenses are covered for one diagnostic assessment process, including combined assessment for ADHD/ADD and autism spectrum disorders.
- An examination procedure must be carried out during the time the insurance is valid and only if
- Co-insured persons and children covered under a group child policy are covered once they have been included in the insurance for six months. there is not already a diagnosis.
- We refer to a treatment center with which we collaborate. The duration and content of the procedure depends on the practitioner's professional assessment.
- We cover subsequent medication follow-up and adjustment for up to 6 months in cases, where we have covered the examination procedure.

Option H can only be subscribed to mandatory agreements through a minimum of 25 employees.
