

Crisis Counselling

Your Support During an Emergency

Emergency Crisis Support:

- We ensure you support if you are facing an urgent crisis due to danger, robbery, assault, violence, kidnapping, fire, explosion, or burglary at home or at work.
- We ensure you support if you have been diagnosed with a life-threatening illness or have been a witness to the sudden death or serious accident of a family member or a colleague.
- We ensure you will be in contact with a crisis psychologist within three hours.
- Following a professional assessment, we determine if a single session of debriefing with a workplace psychologist can be provided in the event of a serious occupational accident or a violent/traumatic incident involving multiple employees.
